APPLICATION OF TARIFF

The regulations and charges applicable to intrastate interexchange telecommunications reseller service provided by Business Telecom, Inc. to customers within the state of South Carolina.

TARIFF FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff pages in effect. Consult the check sheet for sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1(A)
- 2.1.1(A)(1)
- 2.1.1(A)(1)(a)
- 2.1.1(A)(1)(a)(i)

D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

SECTION 3 – SERVICES AND RATES

3.1 Computation of Charges

Unless otherwise specified for a particular service, charges for service will be based on the number of minutes of Service used by the Customer, the time of day at which the Service is used, and the distance between origination and termination of the call. For the purpose of computing charges a call begins at the time that the hardware or software answer supervision indicates that the call has been answered at the distant end, and terminates when the customer disconnects. Applicable usage charges apply for all calls which are answered regardless of the length of the calls. Unless otherwise specified for a particular service, the minimum charge for any call is the applicable rate for one minute; after one minute, charges will be in whole minute increments, with fractions rounded up to the nearest whole minute. For the computation of charges, the duration of each call is measured and rounded up to the applicable billing increment, then multiplied by the applicable rate and if the computed charge for any individual call results in a fraction of a cent, the fraction is then rounded up to the next whole cent on a per call basis. For example, a service may provide that each call will be charged a minimum of 18 seconds and thereafter timed in 6-second increments; therefore, under this example, a 10-second call will be rounded up to 18 seconds (0.3 minutes), and a 44-second call will be rounded up to 48 seconds (0.8 minutes). If, after multiplying the billing increment by the applicable rate, the computed charge for an individual call results in a fraction of a cent, the fraction is rounded up to the next whole cent (for example, \$1.523 would round up to \$1.53). Once the charge for each call is computed as described above, the calls are summed on the Customer's invoice. Calls will be billed at the rate effect during the call, with two rates applied if the call spans over more than one billing rate period. Billing periods are as follows:

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM TO5:00 PM*	DAYTIME RATE PERIOD					EVE	
5:00 PMTO11:00 PM	EVENING RATE PERIOD						
11:00 PM*TO8:00 AM	NIGHT/WEEKEND RATE PERIOD						

* - Up to, but not including

New Year's Day	January 1
Independence Day	July 4
Labor Day	As Federally Observed
Thanksgiving Day	As Federally Observed
Christmas Day	December 25
